

# How we keep your child healthy at

# Pretend City<sup>®</sup>

## CHILDREN'S MUSEUM

Our Staff is well trained on **universal precaution procedures** and are held accountable to follow them:

- Frequent and thorough hand washing
  - Elbow coughing
  - Glove-up when dealing with any body fluids
  - Stay home when sick
  - Stay alert to the need to sanitize particular items and follow through quickly
- 
- All **exhibit areas** (including countertops, tables, chairs, benches, etc..) and props are sanitized after closing each and every day. Staff uses a safe solution to wipe down all hard surfaces in each exhibit: including cars, signs, atm's and individual props).
  - Staff **spot cleans surfaces** with this same solution as needed during the day
  - We have **multiple hand sanitizers** available throughout the museum so that our guests can wash their hands upon entering the museum and exiting (and as many times during their stay as they please).
  - We have **two sanitation stations** in our infant areas where wipes and sanitizers are readily available to parents. We also have a dirty toy bin where parents and staff put toys that have been mouthed by a child so that others do not use them until they are cleaned.
  - Costumes are cleaned every 2 – 3 days. They are laundered using hot water and detergent. Between washing all **costumes are sprayed nightly** with disinfecting solution.
  - All **plastic props** are cleaned in our dishwashers every **2 – 3 days** using hot water and steam drying. Those props that can not withstand this treatment are placed in a mesh bag and dipped into a disinfecting solution and air dried.

Your **child's health** and **wellbeing** is of the greatest concern to us at Pretend City. We feel confident that the regular processes we follow in order to protect your child from undue exposure to germs, provides a measure of safety that is typically not found in most public places. We are **dedicated** to keeping Pretend City **a safe place** for children to learn and grow.
